# RESIDENTIAL PEST CONTROL SOLUTIONS

## THE GREEN-STAR PROGRAM Protect Your Home, Year-Round

### SAFE AND EFFECTIVE

Our integrated, multi-step approach delivers more responsible, yet highly effective solutions.

### CONVENIENT

Our services are designed to control pests outside, before they get in. This reduces scheduling hassles and the need to apply pesticides inside the home.

### AFFORDABLE

Seasonally timed services, a comprehensive treatment plan, and the use of only premium products, gives you superior year-round results with fewer visits, saving you money.

## THE ULTIMATE DEFENSE PROGRAM Protect Your Home & Yard, Year-Round

**BITING & STINGING PESTS** are more than just a nuisance during outdoor activities. These pests can be a threat to your health by transmitting disease or causing allergic reactions.

**IN ADDITION TO** all of the protection included in the Green Star Program, the Ultimate Defense Program adds specialized treatments to insect resting sites such as landscaping, trees, shady areas of the yard, and fence or tree lines so you can take your yard back from outdoor pests like:

- Mosquitoes
- Ticks
- And more
- Wasps & hornets
- Fleas

**Guaranteed control of more than 40 pests!**

## TERMITE PROTECTION SOLUTIONS

**Don't Let Termites Take A Bite Out Of Your Biggest Investment!**

- Termite damage is more common than damage caused by storms, fires, and earthquakes.
- This damage costs property owners roughly \$5 billion annually in repairs.
- Because termite damage is preventable, it is not covered by homeowner's insurance.

Our solution eliminates the entire termite colony, not just individual termites like other treatments. **Also, it remains effective for as long as your plan is in force.**

## COMMERCIAL PEST CONTROL SOLUTIONS

**The Green-Pro Pest Management Program is a solution built around prevention, because waiting until a problem develops costs you time and money.**

- Protect your organization's image by delivering the pest-free environment your customers and employees expect.
- Our effective and environmentally responsible services are tailored to meet the specific needs of commercial and industrial customers.
- We have over 50 years of experience in solving the toughest pest problems in schools, hospitals, restaurants, food processing plants, manufacturing facilities, and countless other commercial environments.

# AMCO RANGER PROTECTS WHAT MATTERS
